

9527 Double Coated Tape

Product Data Sheet

Updated : October 1994
Supersedes : All Previous

Product Description

9527 is a medium-firm rubber-resin pressure sensitive adhesive system. It features an excellent balance of high initial adhesion and good holding power to a wide variety of materials.

Physical Properties

Not for specification purposes

Adhesive Type	Medium Firm Rubber	3M ref :
Carrier	Paper	
Thickness (ASTM D-3652) Tape Liner Total	0.13 mm 0.13 mm 0.26 mm	
Release Liner	Brown Paper	
Shelf Life	12 months from date of despatch by 3M when stored in the original carton at 21°C (70°F) & 50% Relative Humidity	

Performance

Characteristics

Not for specification purposes

Adhesion to Stainless Steel ASTM D-3330	6.0 N/10mm	
Temperature Performance Max : Minutes / Hours Max : Days / Weeks	70 °C 50 °C	
Solvent Resistance	Medium	
UV Light Resistance	Not recommended for direct exposure to sunlight or other sources of ultra-violet light.	

Date : October 1994
9527 Double Coated Tape

Application Techniques	<p>1. Bond strength is dependent upon the amount of adhesive-to-surface contact developed. Firm application pressure develops better adhesive contact & thus improves bond strength.</p> <p>2. To obtain optimum adhesion, the bonding</p>	<p>surfaces must be clean dry and well unified. A typical surface cleaning solvent is isopropyl alcohol & water. Use proper safety precautions for handling solvents.</p> <p>3. Ideal tape application temperature range is 21°C to 38°C (70°F to 100°F).</p>	<p>Initial tape application to surfaces at temperatures below 10°C (50°F) is not recommended because the adhesive becomes too firm to adhere readily. However once properly applied low temperature holding is generally satisfactory.</p>
-------------------------------	--	---	--

Applications	<p>9527 is well suited for bonding together a wide variety of similar and dissimilar materials such as rubbers, metals, wood, glass, paints and many plastics.</p> <p>Some typical applications include:</p>	<p>Splicing of papers, foils, films, fabrics etc.</p> <p>Mounting rubber or photopolymer printing plates</p>	<p>Miscellaneous joining, holding and mounting uses where high adhesion and holding power are required.</p>
